

AR-85, Heavy Barrier

Passive Oil Barrier (vertical)

floaters vertically arranged

Technical Information

Total height	85 cm
Freeboard	30 cm
Draft	55 cm
Segment's length	25 m
Weight	approx. 11 kg per metre
Floater	Stratocell®
Ballast	elements made of profile lead
Fabric	PVC fabric PE1200BA, resistance to UV radiation
Tensile strength (fabric)	764,5 kg / 5 cm
Temperature range (fabric)	- 25 °C + 80 °C
Colour	main sheet yellow, floaters red or black

The mentioned technical information gives typical values, which can be optimized according to technical and operative requirements on request.
