

BL-45, Light Barrier

Passive Oil Barrier (vertical)

floaters vertically arranged

Technical Information

Total height	45 cm
Freeboard	15 cm
Draft	30 cm
Segment's length	12 m
Weight	approx. 1,3 kg per metre
Floater	foam
Ballast	lead
Fabric	PVC coated polyester, resistance to UV radiation
Tensile strength (fabric)	305,8 kg / 5 cm
Temperature range (fabric)	- 25 °C + 80 °C
Colour	yellow or orange; special colours are possible

The mentioned technical information gives typical values, which can be optimized according to technical and operative requirements on request.
