

BO-20 ASTM, Cylindrical Barrier

Passive Oil Barrier (horizontal)

floater horizontally arranged

Technical Information

Total height	50,8 cm
Diameter of the freeboard	20,3 cm
Draft (barrier deflector)	30,5 cm
Segment's length	15 m
Weight	3,2 kg per metre
Floater	solid polyethylene foam
Top tension	stainless steel cable
Ballast	galvanized chain
Fabric	vinyl coated polyester, resistance to UV radiation
Tensile strength	90 kg / cm
Temperature range (fabric)	- 34 °C + 60 °C
Colour	yellow
