

BO-35 ASTM, Cylindrical Barrier

Passive Oil Barrier (horizontal), floater horizontally arranged

Technical Information

Total height	106 cm
Diameter of the freeboard	38 cm
Draft (barrier deflector)	68 cm
Segment's length	15 m
Weight	6,3 kg per metre
Floater	rolled foamed material
Top tension	stainless steel cable
Ballast	galvanized chain
Fabric	urethane coated polyester, resistance to UV radiation
Tensile strength	78 kg / cm
Temperature range (fabric)	- 40 °C + 60 °C
Colour	yellow
